

FRENCH

Immerse yourself in the **language** and **explore the rich history and cultural heritage** of France and Francophone regions with the **Bachelor of Arts in French**.

The French program curriculum allows students to not only develop a strong foundation in French, but also graduate ready and able to converse with native speakers. As they improve their linguistic skills and study various forms of cultural production, French majors also strengthen their ability to analyze and interpret in a way that enhances their overall education. Students complete the program with an ability to communicate, a grounding in literary tradition and an awareness of cultural differences that has become increasingly important in today's world.

ACADEMIC OFFERINGS

- BA in French
- Minor in French
- Foreign Language Certificate in French

IMMERSIVE EXPERIENCES

The French major is an excellent, dynamic path for students who are interested in the wider world.

In addition to learning the French language, you'll explore the cultural and social norms, practices and traditions of the many diverse regions of the Francophone world; the evolution of French cinema, literature and art; and how France's rich, but turbulent, history helped shape the country as it is today.

Graduates have a comprehensive knowledge of French language, culture and societal structure, which is necessary in today's interconnected world. Students in Temple's foreign language programs are globally minded, observant and travel oriented.

French majors can participate in **Temple University's summer study program in Paris** and can **apply for a generous, merit-based scholarship** to help cover the costs.

A CLOSE-KNIT COMMUNITY

French students are part of a small and dynamic learning community within the larger university, which means you will benefit from one-on-one time with faculty while establishing close bonds with your peers. Because the French program is devoted solely to undergraduate education, students have our faculty's full attention.

Students also have the opportunity to engage with French-speaking communities in Greater Philadelphia and participate in activities promoted by French-related institutions like the Alliance Française, the French-American Chamber of Commerce, and the Cultural Services of the French Embassy in Washington, DC.

Juniors and Seniors can take advantage of the **Marthe Lavallée-Williams Academic Scholarship**, which provides financial support to French majors.

WORDLY CAREERS

Studying a language and its culture can broaden your perspective and help you cultivate a greater understanding of people and, in turn, the world. The critical skills gained from learning a foreign language are directly applicable to today's rapidly diversifying world and can be used across all fields and disciplines. French is the second-most widely learned foreign language after English, and the ninth-most widely spoken language in the world.

Some career paths for French majors include: **educator, foreign correspondent, hotel operator, international affairs journalist, publicist, speech therapist, translator, travel agent and travel journalist**.

At the College of Liberal Arts(CLA), students have access to more than just great classes.
