

GLOBAL STUDIES

Temple University's interdisciplinary **Bachelor of Arts in Global Studies** incorporates over a dozen fields of study, teaching students to see the world as a whole.

We live in a time of ever-faster global integration. People, goods, services, and ideas now move with astonishing speed across national boundaries. Many of the major issues that shape our lives are global in scope: war and terrorism, climate change, migration, human rights, public health, economic growth and decline, religion and ideologies, fashion and music, media, technology and more.

Develop a broad and sophisticated understanding of global changes, cultures and perspectives with a BA in Global Studies. This rigorous program prepares students for the international workforce through its emphasis on global cultures, global economy and global security.

ACADEMIC OFFERINGS:

- BA in Global Studies, Global Security Track
- BA in Global Studies, Global Economy Track
- BA in Global Studies, Global Cultures Track
- Minor in Global Studies

TAKE YOUR NEW LANGUAGE SKILLS ABROAD

Students have an array of opportunities to take their Temple experience global. To develop a world perspective, Global Studies students will take two full years of a foreign language and will either participate in an approved study abroad program or take additional area studies courses.

Internships are another vital component to the Global Studies BA program and students have access to valuable global internship and job portals. Former students have secured internships both nationally in the US and internationally in countries including Cambodia, Italy, Jamaica, Japan and more.

PREPARE TO WORK IN THE NEW GLOBAL ECONOMY

Global Studies is not a major with a limiting, predefined career destination. Today, a large and growing number of careers can and do feature international or global components. Global Studies graduates are poised to develop successful careers in **academia, advocacy, business, education, government service, law, nonprofit organizations, research and more.**

At the College of Liberal Arts(CLA), students have access to more than just great classes. Our urban setting provides **COUNTLESS EXPERIENTIAL LEARNING OPPORTUNITIES** outside the classroom like internships, research endeavors with faculty and community engagement. These experiences **EMPOWER OUR STUDENTS** to continue developing their skill sets, pursuing their interests and growing into tomorrow's leaders in challenging and rewarding career paths.

INTERSHIPS

Internships impart valuable skills that are extensions of those taught in the classroom. CLA is committed to enhancing students' professionalism and assisting them in obtaining internships. Visit the **Joyce K. Salzberg Center for Professional Development** for internship resources dedicated solely to liberal arts students.

COMMUNITY-ENGAGED LEARNING

Community-engaged Learning (CEL) is a collaboration between students, faculty and community stakeholders to address a community-identified need.

RESEARCH OPPORTUNITIES

Undergraduate research opportunities at CLA range from developing an independent project to partnering with a faculty member or working with a university lab or group.

STUDY ABROAD

Studying abroad can be one of the most transformative experiences you'll have as a college student. Temple University students have many opportunities to study abroad through our international campuses in Rome and Japan, foreign exchange programs and external partnerships.
