SOCIOLOGY

Study the complexities of human relationships, society and social movements with the **Bachelor of Arts in Sociology** in the College of Liberal Arts at Temple University.

Sociology studies the intersections of identities and institutions. Identities can include class, race, gender, sexuality, disability, and religion, as some examples. Institutions include law, public policy, sports, popular culture, medicine, cities, and much more. You will gain more than an insight into the mundane and complex features of the social life of humans. In the process of learning about the obvious and not so obvious aspects of what people do with one another, you will acquire a concrete set of skills in social theory, data analysis, statistics, fieldwork, and research methods. Gaining the analytical and comprehension skills that are at the heart of complex decision making will prepare you for whatever you choose to do for your professional future.

BUILD YOUR PATH

Our program allows students to specialize in a wide range of areas, all of which are pressing public and social issues: health and medicine, racial and ethnic inequality, globalization and immigration, urban studies and the sociology of gender and sexuality. You have the option of choosing the health track, in which coursework focuses on the health sciences, such as global health and urban health. Students tailor their coursework to fit their specific interests and desired career paths.

TOP-NOTCH FACULTY

Our highly accomplished professors have received accolades for both their research and award-winning teaching.

FLEXIBLE APPLICATIONS, LIFE-LONG POSSIBILITIES

The skills gained from a liberal arts degree are highly relevant in today's rapidly evolving world. Apply the experience and knowledge acquired in the Sociology major to your professional pursuits across many organizations and industries, including academics, cultural institutions, government agencies or the social sciences. The versatility of this program's curriculum helps you graduate with valuable skill sets sought by many employers, ranging from **statistical analysis** to **leadership in equity and inclusion**. We prepare students for careers in many professional areas, including **business, community planning, education, healthcare, law, market research, politics** and **social work**.

At the College of Liberal Arts(CLA), students have access to more than just great classes. Our urban setting provides **COUNTLESS EXPERIENTIAL LEARNING OPPORTUNITIES** outside the classroom like internships, research endeavors with faculty and community engagement. These experiences **EMPOWER OUR STUDENTS** to continue developing their skill sets, pursuing their interests and growing into tomorrow's leaders in challenging and rewarding career paths.

INTERNSHIPS

Internships impart valuable skills that are extensions of those taught in the classroom. CLA is committed to enhancing students' professionalism and assisting them in obtaining internships. Visit the **Joyce K. Salzberg Center for Professional Development** for internship resources dedicated solely to liberal arts students.

COMMUNITY-ENGAGED LEARNING

Community-engaged Learning (CEL) is a collaboration between students, faculty and community stakeholders to address a community-identified need.

RESEARCH OPPORTUNITIES

Undergraduate research opportunities at CLA range from developing an independent project to partnering with a faculty member or working with a university lab or group.

STUDY ABROAD

Studying abroad can be one of the most transformative experiences you'll have as a college student. Temple University students have many opportunities to study abroad through our international campuses in Rome and Japan, foreign exchange programs and external partnerships.
