### **Professional and Experiential Learning Development**

*Organizer and Group Leader*

2020-Present

I have coordinated field trips, guest speakers, internships, and volunteer opportunities, fostering lasting relationships with students to support their professional development and experiential learning. By leveraging my network, including connections made through Eastern State Penitentiary events, local initiatives, and national conferences, I aim to formalize these efforts into an experiential learning group. This group will collaborate with existing criminal justice clubs to expand hands-on opportunities and further enrich student engagement beyond the classroom. This effort will also supplement my research career as I've learned about new datasets, populations, and programs that align with my research expertise.
